SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Assistant Commissioner for Patents  
Washington, DC 20231

Sir:

This application is a continuation-in-part of United States application Serial No. 09/420,652, now U.S. Patent 6,268,120. In compliance with the duty of disclosure set forth in 37 C.P.R. 1.97, the Examiner is referred to the files of the application for prior art of record. For the Examiner's convenience, copies of the 1449 forms in that case are enclosed, as well as a new 1449 form listing art cited by the Examiner in the prior case.

This information is cited in a spirit of forthrightness and cooperation to enable the applicants to obtain that measure of protection for the invention to which there is entitlement. However, no representation is made that the listed art actually qualifies as prior art under the patent statute and the mere use of PTO-1449 is not an admission that all listed references are prior art. No representation is made that applicants know of the best art.

It is believed that this submission does not require the payment of a fee. If this is not correct, please charge any required fee to deposit account no. 07-1969.

Respectfully submitted,

*Susan K. Doughty* ✓
